Service Rates, Prices.

Our Labor Rate on Sales Representation is \$50 per 1hour(excludes travel, other as stated above).

Ordering Options.

Our standard contract is covered mostly just the sales communications! It could be ordered and paid for online 24-7 by following, clicking this URL link

[-http://accessinfobrokers.freeservers.com/services.htm!](http://accessinfobrokers.freeservers.com/services.htm)

Each of all not included features could be added to the existing contract after it ordered and paid for separately after our company gets you our price estimates to be included in the signed contract on the date of signing!

Our services "on the Go" would allow you to order, pay for and receive any number of additional service features not included into an original standard contract at any time(more than 3months before current contract renewal) during the services.

ATTENTION!

It is better for you to order now the longer duration of Our Reps services and contact us long before the renewal date about your intentions (renew, pause, other). The people assigned to handle your accounts would not wait for you to renew on time this contract and could be working for another client if you have decided to pause, temporary stop using our reps! And it would take quite a longer time and many thousands dollars more money to restore the broken sales communications with existing buyers and prospects.
